

Doug Mitchell

Description

Doug Mitchell was the president of the General Association of Branch Davidian Seventh Day Adventists from 1986-2013. His message built upon the teachings of [Lois Roden](#), [Ben Roden](#), [Victor Houteff](#), Ellen White, and all the messengers who preceded them. As you can see below, Doug wrote upon many subjects, with the chief focal points of his message being the dry bones condition of God's professed people, the restoration of the Lord's Supper, and the revelation of the Seven Thunders of Revelation 10. Doug also had the misfortune of being the president of the Branch Davidian movement during the years when Vernon Howell (aka David Koresh) committed a corporate identity theft against it, and defamed its name before the world through the tragic events of 1993 near Waco, TX. Doug had the burden of attempting to clear the Branch name. For the fullest explanation of this subject, we recommend for you to read his book [Waco Untold: How David Koresh Stole the Identity of the Branch Davidians](#).
