

# Miss Misinformation and Lady Learning

## Description

Beware of Miss Misinformation  
She's a "Yes And" Lady  
She's agreeable  
Though unseeable, she has tailor-made news  
oh she's baseless and shady  
with a deadly ruse;  
beware of bias confirmation

She walks down your street and gives you her hand  
decked out like a hottie with a naughty glance  
Her lips drip of honey and her speech is smooth  
she had you at "you're right;" you feel her presence soothe

Your brother and your father and your mother and their daughter  
warn you of her.  
They say, "She's done this before, to many a man  
she has victims galore,  
she's a real scorcher; her pleasure is torture  
She'll drown you in intoxication; crown you just for fornication  
You'll vomit wisdom and knowledge; forget college  
Ignorance is pseudo-bliss; she'll leave you with her death-blown kiss  
To seek more will be your mortification"

Beware of Miss Misinformation  
She's a "Yes And" Lady  
She's agreeable  
Though unseeable, she has tailor-made news  
oh she's baseless and shady  
with a deadly ruse;  
beware of bias confirmation

Though your family tries to open your eyes  
you may refuse to size up and instead offended rise up  
You have an impulse to defend her; "How could she be a pretender?"  
You see nothing wrong; with her everything is right  
your trust is so strong, you'll follow her even if darkness blinds your sight

But her dwelling is dark  
her way is the way of death  
her gate is the gate of death  
her substance is stark  
Not even she knows  
the path where she goes  
She is missing the mark  
Her seduction is abduction  
Her instruction, destruction

She is the Oligarch of Emptiness  
the Damsel of Deaf Defamation  
The Conclusory Dearie of Conspiracy Theory  
You are only her latest subject for confabulation

Beware of Miss Misinformation  
She's a "Yes And" Lady  
She's agreeable  
Though unseeable, she has tailor-made news  
oh she's baseless and shady  
with a deadly ruse;  
beware of bias confirmation

Don't let your love linger on this bringer of bad  
move on you must, if you don't it's just, justification so sad  
She said, "COVID's a scam;" "the globe is a fraud"  
"Trust your own experience" – this reasoning's flawed.  
You have something to learn from Dunning and Kruger  
Don't resent experiment just 'cause she's a cougar

It was doomed to die from the start, here's why:  
She destroys herself in her ignorance  
and she makes her followers swallows of pseudo-scientific nonsense

They'll forever be driving diesels, spreading measles, demonizing needles,  
yet they clear their Qi with acupuncture and reiki  
They say no to GMO, but yes to homeopathy  
5G is their tower of babel. Who hates Bill Gates? I guess some are able  
It's easy to accuse the famous, but will we use the same standards when others blame us?  
Members of the government they dehumanize  
castigate, masticate and scrutinize  
What happened to the golden rule?  
Be as cautious in accusing others as you would want them to be in accusing you  
The time is nigh to turn your critical eye on your relationship with Miss Misinformation  
She ain't the only wish in what be  
She's a death-wish, you see  
Self-destruction is the sole production of her principles

Beware of Miss Misinformation  
She's a "Yes And" Lady  
She's agreeable  
Though unseeable, she has tailor-made news  
oh she's baseless and shady  
with a deadly ruse;  
beware of bias confirmation

It's time to say,  
"Bye bye Miss Misinformation  
I'll go to Lady Learning for my inspiration  
So long Miss Misinformation  
I choose Lady Learning and her education"

She's a fountain of wisdom  
raining down knowledge and instruction  
She says, "Experiment! Discover truth!  
Question the dogma you learned in your youth!"  
She starts with deconstruction, then builds anew  
her foundation, materialism; her reliance, science  
She wants you to have knowledge, not mere compliance

It's time to say,  
"Bye bye Miss Misinformation  
I'll go to Lady Learning for my inspiration  
So long Miss Misinformation  
I choose Lady Learning and her education"

You may feel like a fool, deranged by your ex  
but magic's not real, no lingering hex ghosting around  
Take Wisdom for Folly; you'll be finally sound  
She's a teacher to all who seek her  
Her principles are precious; how prudent for a student

to acquire intelligence and aspire at all expense to live  
according to truth, knowledge, science, evidence, education,  
whatever we learn in the ever-expanding perimeter of knowledge through exploration

It's time to say,  
"Bye bye Miss Misinformation  
I'll go to Lady Learning for my inspiration  
So long Miss Misinformation  
I choose Lady Learning and her education  
Bye Bye Miss Misinformation  
I'll follow Lady Learning with full aspiration  
Bye Bye Miss Misinformation  
I'll join Lady Learning at her convocation  
Bye Bye Miss Misinformation  
I look to Lady Learning for illumination
